

GPRA Results & Updates

California Area

Elaine Brinn, GPRA Coordinator, CAO

Janae Price, Epidemiologist, CAO

Outline

- 2007 Results
 - Tribal Programs
 - Urban Programs
- Improvement Efforts
- GPRA Measure & CRS Changes for 2008
- Measures emphasis for 2008
- News and Announcements

2007 GPRA Results - Tribal

- California Area exceeded the national average for
 - Ideal Glycemic Control
 - LDL Assessment
 - Dental Access
 - Breast Cancer Screening (Mammogram)
 - Intimate Partner Violence Screening
 - Depression Screening
 - Childhood Weight Control

2007 GPRA Results - Tribal

- Measures that did not meet the National average
 - Diabetes: Blood Pressure Control
 - Diabetes: Retinopathy
 - Immunizations:
 - Influenza (65+)
 - Pneumovax (65+)
 - Childhood Immunizations
 - Cancer Screening:
 - Cervical Cancer Screening (Pap Smears)
 - Colorectal Cancer Screening
 - Other Screenings:
 - Tobacco Cessation
 - FAS Prevention
 - Prenatal HIV Screening

2007 – California Area - Tribal

GY 2007 End of Year Dashboard

	California Area	California Area	National Avg.	National	2007 End of Year
DIABETES	<u>2007</u>	<u>2006</u>	<u>2007</u>	<u>2007 Target</u>	Results - California Area
Diabetes Dx Ever	10%	10%	11%	N/A	N/A

*Standards of care changes may cause significant decrease in rates compared to previous year (see CRS logic) Changes in number of sites reporting from 2006 to 2007 may cause significant variability in results (2007 - 7 sites, 2006 - 5 sites) Only programs reporting through RPMS/CRS were aggregated to represent Area results.					

Urban Programs - Interpretation of results

- National Level
 - 100% record review
 - Sampling methodology
- Area Level
 - Changes in number of sites reporting electronically
- Local Level
 - Standard services
 - Outreach/Referral
 - Behavioral Health

- News and Announcements

Implement improvement efforts

- Best Practices conference
- Monthly/Quarterly Web Ex sessions
- Trainings
- GPRA Bulletins
- Quarterly GPRA reports
- Site visits by IHS staff
- Availability of standards of care for selected GPRA measures – see clinical resources @ <http://www.ihs.gov/NonMedicalPrograms/nc4/nc4-clinguid.cfm>

GPRA Measure & CRS changes for 2008

- Split report
- No GPRA measure changes (only target changes)
- New GPRA Measure Forecast Patient List Linked to the Scheduling Package (provide handout example)
 - Allow user to enter a date range
 - Run list by patient name, clinic name, or facility/division for patients with scheduled visits during that date range
 - Apply the basic logic of the National GPRA Report
 - Users then have a list of all the GPRA screenings/tests the patient is due for at his/her upcoming visit
 - Different from current clinical reminders in EHR since not all of the logic is the same as the CRS logic

GPRA Measure & CRS changes for 2008

- 4 New Performance Measure Topics
 - Sexually Transmitted Infection (STI) Screening
 - Heart Failure and Evaluation of LVS Function
 - ASBI Interventions
 - Palliative Care

2008 – Measure Focus

National

- Program Improvement Initiative
 - New scorecard element
 - Requires quarterly report on 10 measures
- Performance and Accountability Report
 - CVD Comprehensive
 - Domestic/Intimate Partner Violence
- HHS Strategic Plan
 - Retinal Eye Exam
 - Colorectal Cancer Screening
 - DM Blood Pressure Control
- IHS Directors contract
 - 3 above plus Childhood Immunizations

2008 – Measure Focus

California Area

- Specific Measures
 - Diabetes: Retinopathy
 - Cervical Cancer Screening (Pap Smear)
- Targeted Site Visits
 - Group Visits
 - Target current policies and processes
- WebEx Series
 - Cancer Prevention
